

Remote Access Repair

Have a software problem? Need someone to just install a new piece of software, or remove SPYWARE/VIRUS. Why lug that heavy PC to the shop. Do you have high speed internet? We offer remote access repair. With today's technology remote repair has never been easier. To start a remote repair session, go to our secure remote access website. Enter your security key provided by us over the phone at the time of the repair. You will be able to watch us work, or you can simply go about your business. You will receive a call when we are finished. Call during normal business hours to schedule a time that best fits your schedule

Free Diagnostic - Same Day Service

We offer an affordable solution to your computer repair needs. We have low overhead and pass the savings on to you. Since we are a repair shop only, we are faster, more thorough and affordable than the local competition. With 15 years of computer repair experience, we have seen and repaired just about every computer problem out there.

Our goal is to repair your computer as reliable and affordable as possible, without having to repair it more than once. Time is money and we realize most people cannot make money without a properly working computer. Reliable affordable service is a must in today's computer industry. With remote access available to high speed internet users, there is no need to fuss with bringing your PC in to the store. With remote access we can repair your PC while you go to lunch or a meeting.

In-store we also offer a 24 hour diagnostic turnaround, or a rush diagnostic which we will put on the work bench immediately. On-site work available, no-trip fees within 30 miles of the store.
